

FLEET OPERATIONS SOFTWARE · FOR INDIAN TRANSPORT OWNERS

Your whole fleet. One screen.

Drivers, vehicles, trips, compliance and documents — run your entire transport operation from a single, traceable platform. No more registers, WhatsApp threads, or one supervisor's memory.

DIGITIZED OPERATIONS.

Data-driven decisions, from the yard to the highway.

Still running your fleet on registers, WhatsApp and **one supervisor's memory?**

• WITHOUT A SYSTEM

- ❌ **Renewals slip through.** Insurance, permit, fitness and PUC lapse — and you find out at the checkpoint.
- ❌ **Trips go unrecorded.** Kilometres, batta and driver assignments live in scattered notes and chats.
- ❌ **No accountability.** When one person leaves, the operation's knowledge leaves with them.
- ❌ **Decisions on guesswork.** No clean data means no real view of cost, utilisation or compliance.

• WITH QUAMBASE

- ✓ **Compliance, tracked automatically.** Every expiry stored once, with alerts before anything lapses.
- ✓ **Every trip, sealed & traceable.** Log a complete trip in thirty seconds — driver, vehicle, kilometres.
- ✓ **One source of truth.** Drivers, vehicles and documents in one place — owned by the business.
- ✓ **Data-driven decisions.** Clean records turn into real insight on every driver and every vehicle.

Plan. Track. Deliver.

QuamBase Fleet Management System digitizes your operations so you can make data-driven decisions.

WHAT'S INSIDE

Everything your fleet runs on.

Drivers

Add a driver once — name, licence, batta and bank details. Reused on every trip after, with licence-expiry alerts.

Vehicles

Register with insurance, permit, fitness, PUC and tax. Compliance dates tracked automatically with auto-alerts before they lapse.

CORE

Trips

Log a complete trip in thirty seconds. Driver, vehicle and kilometres — sealed, traceable and ready to audit.

Guest Drivers

Onboard temporary or contract drivers without diluting your master data — fully tracked while they're on the road.

Users & Roles

Give your office and supervisors the right access. Company admins, locations and roles — accountability built in.

Documents

Every RC, licence, permit and certificate stored centrally — found in seconds, secured for the whole business.

Attendance

Track who's on duty across your fleet — driver attendance tied straight to operations and payroll-ready records.
